LEAD SET SELECTIONS

PASSENGER, COMMERCIAL & 4WD

8.0mm **ULTRA**Series

STAINLESS STEEL SPIRAL CORE

A quality aftermarket replacement lead set for most passenger vehicles

Ultra Series Features

Lead Diameter: 8mm

Colour: Blue only

Application: Most passenger vehicles.

Description: A quality ignition lead set designed to give excellent service in most passenger vehicles.

Cable Standards: Tested to ISO 3808 Standards.

Boot Features

- Computer Aided Internal Boot Design allows the terminal's contours to be faithfully reproduced eliminating any chance of crossfire.
- Silicone compound for durability.

Terminal Features

- High memory spring steel retaining clip designed for positive terminal locking at all RPM's.
- Precision engineered 0.43mm Stainless Steel Base.
- Triple cable retaining ribs for superior cable retention.

Cable Features

- >260° silicone on silicone insulating jackets.
- Technologically advanced nylon tape adds tensile strength.
- Stainless steel spiral wound conductor.
- 2,100±500 OHMS resistance per metre.

EAGLE PART NO. SYSTEM

8	6	0	8
Cable Dia.	No. of cylinders	Part No.	

Note: Above specifications may vary due to technological advances at manufacturer's discretion.

The product description above is to be used as a guide only. It is up to the purchaser/end user to determine the correct suitability/application of product to suit their individual requirements. Care must be taken when selecting product. For Warranty information on above lead sets, refer to back cover.

LEAD SET SELECTIONS

PASSENGER, COMMERCIAL & 4WD

8.0mm HEAVY DUTY **ULTRA**Series

STAINLESS STEEL SPIRAL CORE

High quality heavy duty aftermarket replacement lead set for most passenger, commercial & 4WD vehicles

HD Ultra Series Features

Lead Diameter: 8mm

Colour: Blue only

Application: Most passenger, commercial & 4WD vehicles.

Description: A heavy duty set of ignition leads primarily designed to handle higher heat conditions prevalent in most late model passenger, commercial and 4WD vehicles.

Cable Standards: Tested to ISO 3808 Standards.

Boot Features

- "Finger Grip" Design ensures easy fitment and removal of Spark Plug Boot. (Where applicable)
- Computer Aided Internal Boot Design allows the terminal's contours to be faithfully reproduced eliminating any chance of crossfire.
- Unequaled durability by utilising High Temp. Modified Silicone compounds.

Terminal Features

- High memory spring steel retaining clip designed for positive terminal locking at all RPM's.
- Precision engineered 0.43mm Stainless Steel Base.
- Extra long base ensures minimal heat transfer from spark plug tip to inner cable core. This ensures maximum cable life.
- Triple cable retaining ribs for superior cable retention.

Cable Features

- 2,100±500 OHMS resistance per metre.
- Stainless steel spiral wound conductor.
- Technologically advanced nylon tape adds tensile strength.
- >260° silicone on silicone insulating jackets.

EAGLE PART NO. SYSTEM

8	6	0	8	HD
Cable Dia.	No. of cylinders	Part No.		H'Duty Ultra Series

Note: Above specifications may vary due to technological advances at manufacturer's discretion.

The product description above is to be used as a guide only. It is up to the purchaser/end user to determine the correct suitability/application of product to suit their individual requirements. Care must be taken when selecting product. For Warranty information on above lead sets, refer to back cover.

LEAD SET SELECTIONS

PASSENGER, COMMERCIAL & 4WD

5.0mm & 7.0mm *Eliminator* SOHC & DOHC BOOT & TUBE ASSEMBLIES

STAINLESS STEEL FERRITE SPIRAL CORE

Premium quality upmarket replacement lead set for vehicle's having SOHC & DOHC motors fitted with Boot & Tube technology.

5.0 & 7.0mm SOHC & DOHC Eliminator Series Features

Lead Diameter: 5.0mm & 7.0mm

Colour: Black only.

Application: Most passenger, Commercial & 4WD vehicles fitted with SOHC & DOHC motors.

Description: A premium quality ignition lead set specifically designed as an upmarket replacement for SOHC and DOHC motors fitted with Boot and Tube component technology. Being Eliminator series, they are fitted with our 1300 ohms per metre Ferrite Spiral Core conductor which by induction design delivers peak voltage to the plugs ensuring almost complete combustion for super quick starts and smooth running.

Cable Standards: Tested to ISO 3808 Standards.

Boot & Tube Assembly Features*

- Hi-temp Silicone Well Cover boot
- PVT insulator tube insulates plug terminal to prevent high voltage crossover
- Hi-temp Silicone Tip Seal.

Terminal Features

- High Memory spring steel retaining clip for positive terminal locking at all RPM'S.
- Extra long .51mm base offers minimal heat transfer from plug tip to inner conductor. This ensures maximum cable life.
- Triple cable retaining ribs and "W" shaped crimp ensure superior cable retention.

Cable Features

- Simply "the best" Stainless Steel wound Ferrite coated Spiral Core conductor yields ultra low resistance ensuring peak voltage delivery to the spark plugs.
- High Dielectric Silicone inner jacket.
- Technologically advanced nylon tape adds tensile strength.
- 260°C High Temp modified Silicone outer jacket ensures complete protection against heat and engine bay contaminants.

*Angle specific plastic distributor clips supplied standard on all 5mm lead sets.

EAGLE PART NO. SYSTEM

E	5	4	2	9	8
Eliminator Series (Prem.)	Cable Dia.	No. of cylinders	Part No.		

* Not required on certain vehicles.

Note: Above specifications may vary due to technological advances at manufacturer's discretion.

The product description above is to be used as a guide only. It is up to the purchaser/end user to determine the correct suitability/application of product to suit their individual requirements. Care must be taken when selecting product. For Warranty information on above lead sets, refer to back cover.

LEAD SET SELECTIONS

PASSENGER, COMMERCIAL & 4WD

8.0mm & 9.0mm *Eliminator* Series I

STAINLESS STEEL FERRITE SPIRAL CORE

**Eagle's Eliminator Series I
ignition leads are the top of our range
for street driven vehicles!**

8.0 & 9.0mm Eliminator Series I Features

Lead Diameter: 8.0mm & 9.0mm

Colour: 9.0mm Blue, Black, Red & Yellow
Note: 8.0mm only available in Black.

Application: Passenger, Performance,
Commercial & 4WD vehicles including
Super & Turbo charged motors.

Description: Eliminator Series 1 ignition leads
are the top of our range for street vehicles. They
withstand high heat and are fitted with our 1300
ohms per metre Ferrite Spiral Core conductor
which by induction design delivers peak voltage
to the plugs ensuring complete combustion for
super quick starts and smooth running.

Cable Standards: Tested to ISO 3808 Standards.

Eagle's Finger Grip SPB Features*

- Eagles computer designed "finger grip" Spark Plug Boot allows easy on – easy off installation.
- Unequaled durability by using our best High Temp Silicone compounds.

Terminal Features

- Zero rust 0.43mm Stainless Steel base.
- High Memory spring steel retaining clip for positive terminal locking at all RPM'S.
- Triple cable retaining ribs and "W" shaped crimp ensure superior cable retention.

Distributor Boot Features

- High Dielectric strength EPDM.

Cable Features

- The heart and soul of our Eliminator Series lead. Stainless Steel wound Ferrite Spiral Core conductor with super low resistance for maximum voltage delivery.
- High Dielectric Silicone inner jacket.
- Technologically advanced nylon tape adds tensile strength.
- 260°C high-temp Silicone outer and inner jackets.

COLOUR RANGE

LEAD SET SELECTIONS

PASSENGER, COMMERCIAL & 4WD

8.0mm LPG Eliminator Series

STAINLESS STEEL FERRITE SPIRAL CORE

Premium quality aftermarket replacement lead set for most passenger, commercial & 4WD vehicles fitted with LP gas.

LPG Eliminator Series Features

Lead Diameter: 8mm

Colour: Black only

Application: Most passenger, commercial & 4WD vehicles fitted with LP Gas.

Description: LP Gas motors require a higher firing voltage to initiate combustion and our 8mm LPG Eliminator Series leads are manufactured to help to overcome poor secondary voltage delivery to the plugs associated with conventional cores by using our new 1300 ohms per metre Ferrite Spiral Core conductor which by induction design delivers peak voltage to the plugs ensuring almost complete combustion for super quick starts and smooth running.

Cable Standards: Tested to ISO 3808 Standards.

Boot Features

- "Finger Grip" Design ensures easy fitment and removal of Spark Plug Boot. (Where applicable)
- Computer Aided Internal Boot Design allows the terminal's contours to be faithfully reproduced eliminating any chance of crossfire.
- Unequaled durability by utilising High Temp. Modified Silicone compounds.

Terminal Features

- High memory spring steel retaining clip designed for positive terminal locking at all RPM's.
- Precision engineered 0.43mm Stainless Steel Base.
- Extra long base ensures minimal heat transfer from spark plug tip to inner cable core. This ensures maximum cable life.
- Triple cable retaining ribs for superior cable retention.

Cable Features

- 1,300±130 OHMS resistance per metre.
- Stainless Steel Ferrite spiral wound conductor.
- Technologically advanced nylon tape adds tensile strength.
- >260° silicone on silicone insulating jackets.

STREET / STRIP RACING

10.5mm *Eliminator* Series II

COPPER FERRITE SPIRAL CORE

**10.5mm Eliminator Series II,
the next generation in street/strip
ignition lead technology!**

10.5mm Eliminator Series II Features

Lead Diameter: 10.5mm

Colour: Blue, Black & Red

Application: High Performance Street /Strip vehicles but primarily designed for racing applications burning Hi-octance and Methanol fuels.

Ignition System Compatibility: Very high output aftermarket ignition systems including most Crane™ & MSD™ types. **Note:** We recommend consulting with your ignition manufacturer for system compatibility before using this product.

Description: Eliminator Series II ignition leads have been specifically designed to cope with today's high compression high horsepower race engines. Being fitted with three layers of Silicone jackets, they are a proven performer at carrying secondary voltages in excess of 70,000 volts whilst emitting virtually zero RFI making them compatable for use with virtually all hi-tech on board computer systems.

Cable Standards: Tested to ISO 3808 Standards.

Eagle's Finger Grip SPB Features

- Eagles computer designed "finger grip" Spark Plug Boot allows easy on – easy off installation.
- Unequaled durability by using our best High Temp Silicone compounds.

Terminal Features

- Zero rust 0.43mm Stainless Steel Base.
- High Memory spring steel retaining clip for positive terminal locking at all RPM'S.
- Triple cable retaining ribs and "W" shaped crimp ensure superior cable retention.

Cable Features

- Ultra low 325 ohms per metre resistance Spiral wound Copper over Ferrite coated Kevlar™ inner core.
- Nylon Tape gives exceptional tensile and terminal pull off strength.
- Three 260° C Hi-temp Silicone jackets for superior insulating properties.

LEAD SET SELECTIONS

PROFESSIONAL RACING

11.0mm *Eliminator* Series III

COPPER FERRITE SPIRAL CORE

**11mm Eliminator Series III,
professional racing ignition lead technology!**

11.0mm Eliminator Series III Features

Lead Diameter: 11mm

Colour: Black (Gold Print)

Application: Professional racing engines only including Super and Turbo charged engines burning Hi-octane Petrol, Methanol and Nitro Methane fuels.

Ignition System Compatibility: Very high output aftermarket ignition systems including most Crane™ & MSD™ types. Note: We recommend consulting with your ignition manufacturer for system compatibility before using this product.

Description: Eliminator Series III ignition leads offer the professional race engine builder "The Next Generation" in racing ignition lead technology. Designed for today's high compression, high temperature and high horsepower race engines and have been tested on Dyno's and proven on the race track. 11mm Eliminator series are fitted with three layers of Silicone jackets and an Ultra low resistance Copper wound Ferrite Spiral core conductor. Eliminator Series III are a proven performer at carrying secondary voltages in excess of 90,000 volts whilst emitting virtually zero RFI making them compatible for use with virtually all Hi-tech on board computer systems.

Cable Standards: Tested to ISO 3808 Standards.

Eagle's Finger Grip SPB Features

- Eagles computer designed "finger grip" Spark Plug Boot allows easy on – easy off installation.
- Unequaled durability by using our best High Temp Silicone compounds.

Terminal Features

- Zero rust 0.43mm Stainless Steel Base.
- High Memory spring steel retaining clip for positive terminal locking at all RPM'S.
- Triple cable retaining ribs and "W" shaped crimp ensure superior cable retention.

Cable Features

- Three 260° C Hi-temp Silicone jackets for superior insulating properties.
- Nylon Tape gives exceptional tensile and terminal pull off strength.
- Ultra low 325 ohms per metre resistance Spiral wound Copper over Ferrite coated Kevlar™ inner core. Other low resistance conductors are available, please contact Eagle for technical assistance.

Note: Above specifications may vary due to technological advances at manufacturer's discretion.

Description: Holden Boot & Tube Assembly
Colour: Black
Material: Silicone / PBT / Silicone
Cable Dia.: 7mm

Pt. No.
BTA-80

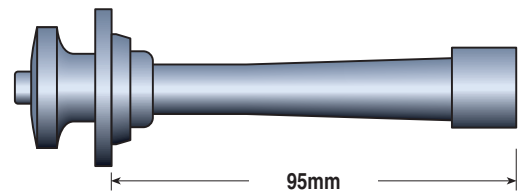

Part No.: BTA-81
Description: Nissan Boot & Tube Assembly
Colour: Black
Material: Silicone / PBT / Silicone
Cable Dia.: 7mm

Pt. No.
BTA-81

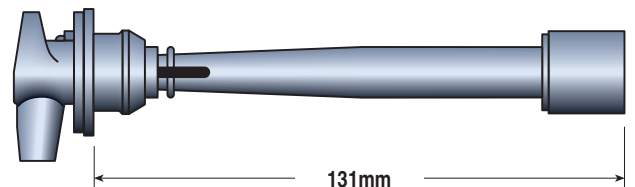

Part No.: BTA-82
Description: Kia Boot & Tube Assembly
Colour: Black
Material: Silicone / PBT / Silicone
Cable Dia.: 7mm

Pt. No.
BTA-82

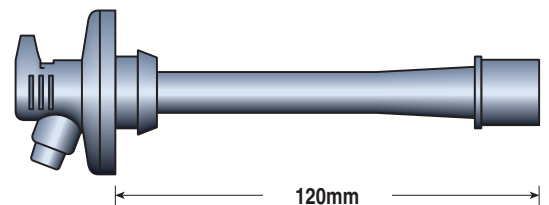

Part No.: BTA-83
Description: Hyundai Boot & Tube Assembly
Colour: Black
Material: Silicone / PBT / Silicone
Cable Dia.: 7mm

Pt. No.
BTA-83

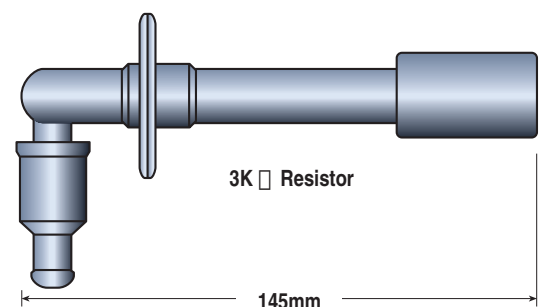

Part No.: BTA-84
Description: Toyota Boot & Tube Assembly
Colour: Black
Material: Silicone / PBT / Silicone
Cable Dia.: 5mm

Pt. No.
BTA-84

Part No.: BTA-85
Description: Porsche Boot & Tube Assembly
Colour: Black
Material: Silicone / PBT / Silicone
Cable Dia.: 7mm

Pt. No.
BTA-85

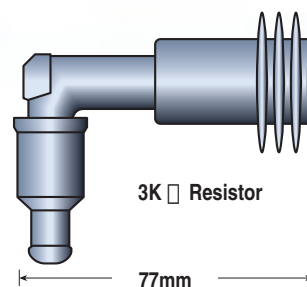

COMPONENTS

BOOT & TUBE ASSEMBLIES

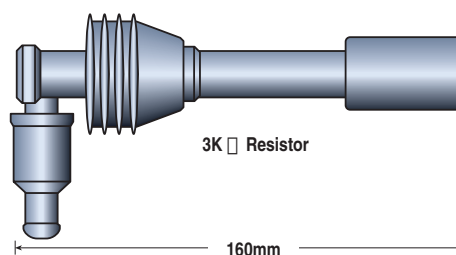

Part No.: BTA-86
Description: Porsche Boot & Tube Assembly
Colour: Black
Material: Silicone / PBT
Cable Dia.: 7mm

Pt. No.
BTA-86

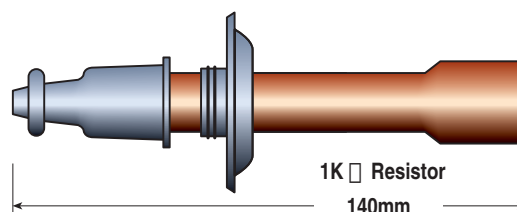

Part No.: BTA-87
Description: Porsche Boot & Tube Assembly
Colour: Black

PROFESSIONAL HAND TOOL

Part No.: HT-1
Description: Hand Crimp Tool
Crimp Range: 7-9mm

Pt. No.
HT-1

They're not cheap! But this surely must be the best Ignition Lead Crimping Tool on the market.

Polished and hardened jaws combined with ratchet action handles makes this tool a must for the professional mechanic's tool box. Crimps distributor and spark plug terminals.

NUMBER SLEEVES

Part No.: NS-1
Description: Number Sleeves
Colour: Black
Shrink Range: 13 to 7mm
Skin Pack Qty: 1 ea Cyl. 1 - Cyl. 8

Pt. No.
NS-1

Eagle part numbering sleeves are a great way of keeping ignition leads in order. Because of their wide shrink range, they are ideal for use on just about any ignition lead, regardless of diameter.

Note: Part No. Sleeve must be fitted to lead prior to Spark Plug or Distributor Boots being fitted.
